

Sample figure

The figure is a black and white line drawing on a white background. It features a coordinate system with a vertical y-axis and a horizontal x-axis, both ending in arrowheads. A smooth, continuous curve starts at a point on the y-axis, rises slightly to a local maximum, then descends to a local minimum, and finally rises again. A straight line with a negative slope is drawn across the graph, intersecting the curve at two points. The text 'Sample figure' is written in a large, bold, sans-serif font, rotated approximately 45 degrees counter-clockwise, and positioned diagonally across the center of the graph area.
